PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science Engineering (Artificial Intelligence & Machine Learning) student with practical experience in Full Stack Development, Web Development, Flutter Application Development, Firebase and Generative AI technologies. Strong foundation in Object-Oriented Programming, Data Structures, Database Management Systems, and Software Development. Passionate about building innovative applications, solving real-world problems, and continuously learning emerging technologies. Seeking opportunities to contribute technical expertise while growing as a software developer.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering (AI & ML)

M. Kumarasamy College of Engineering, Karur

Expected Graduation: 2028

CGPA:8.3/10

TECHNICAL SKILLS

Programming Languages

- Java
- Python
- SQL
- JavaScript
- C
- C++

Frontend

- HTML5
- CSS3
- JavaScript

- Responsive Web Design

Backend

- Java
- Firebase
- REST API (Basics)
- Authentication & Authorization

Database

- MySQL
- Firebase Firestore

Tools

- Git & GitHub
- VS Code
- Android Studio
- Firebase Console

INTERNSHIP EXPERIENCE

Web Development Intern

Sep 2026 – Present

- Developing responsive web applications using HTML, CSS, JavaScript, and React.
- Implementing contact forms, local storage integration, authentication systems, and interactive user interfaces.
- Building reusable React components and Single Page Applications (SPA).
- Working with GitHub for version control, collaboration, and deployment.

- Developing portfolio websites and frontend applications using modern web technologies.

Full Stack Development Intern

APTM Solutions

- Completed Full Stack Development internship with hands-on training in web technologies.
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Worked with Java, SQL, and Firebase for application development.
- Learned frontend and backend integration concepts.
- Implemented authentication and database connectivity features.
- Participated in project development, testing, and debugging activities.
- Gained practical experience in software development lifecycle and teamwork.

PROJECTS

Food Trust AI – AI-Powered Intelligent Food Quality Monitoring and Smart Redistribution System

Technologies: Flutter, Firebase, IBM watsonx.ai

- Developed a mobile-based platform to reduce food wastage and improve food redistribution efficiency.
- Designed and implemented NGO management, volunteer management, administration, and notification modules.
- Integrated AI-powered food freshness prediction and food quality assessment.
- Utilized Firebase Authentication and Firestore for secure data management.
- Integrated IBM watsonx.ai for intelligent food analysis and report generation.
- Contributed to building a scalable solution addressing food waste and hunger challenges.

Career Skill Development

Technologies: Research, Communication Analysis

- Analyzed essential employability and career-development skills.
- Studied communication, technical, and problem-solving competencies.
- Evaluated career preparation strategies including resume building and interview readiness.
- Identified key skills required for academic and professional growth.

Emoji Usage in Festival Tweets

Technologies: Python, NLP, Data Analysis

- Collected and analyzed festival-related social media posts.
- Studied emoji usage patterns and frequency distribution.
- Evaluated user sentiment and engagement through emoji analysis.
- Explored applications of NLP and data visualization techniques.

Low-Cost Machine for Cotton Picking

Technologies: IoT, Embedded Systems, Agricultural Innovation

- Proposed a low-cost solution for cotton harvesting automation.
- Studied methods to reduce manual labour in cotton farming.
- Designed a concept for efficient cotton collection and storage.
- Focused on affordability and ease of use for small-scale farmers.

Online Food Ordering System

Technologies: HTML, CSS, JavaScript, Firebase

- Developed a responsive web-based food ordering platform for customers to browse and order food online.
- Designed attractive user interfaces using HTML, CSS, and JavaScript.

- Implemented user registration and login functionality using Firebase Authentication.
- Integrated Firebase Firestore for storing customer, menu, and order details.
- Developed cart management and order placement features.
- Enabled real-time order tracking and status updates.
- Ensured responsive design for both desktop and mobile devices.
- Applied modern web development practices for better user experience and performance.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Developed a responsive personal portfolio website.
- Implemented Contact Form with Local Storage integration.
- Added Admin Login and Response Management Dashboard.
- Developed Dark/Light Theme Toggle functionality.
- Implemented responsive UI design for desktop and mobile devices.
- Deployed project using GitHub and modern web development practices.

CERTIFICATIONS

- NPTEL – Cloud Computing
- NPTEL – Introduction to Internet of Things (IoT)
- NPTEL – Climate Hazards
- HP LIFE – Critical Thinking in the AI Era
- Simplilearn SkillUp – Generative AI for Everyone
- Simplilearn SkillUp – Introduction to Prompt Engineering
- Semrush Academy – Become an AI-Powered Marketer

- Deloitte – Technology Job Simulation
- Deloitte – Data Analytics Job Simulation
- IBM SkillsBuild – Introduction to Python
- IBM SkillsBuild – IBM Watson Studio

TECHNICAL STRENGTHS

Full Stack Development

Backend Development

Database Management

Frontend Development

API Integration

Version Control (Git)

Responsive Web Design

Mobile Application Development

Artificial Intelligence Applications

Firebase Integration

Cloud Computing

Software Development Life Cycle (SDLC)

Problem Solving & Debugging

ACHIEVEMENTS

Participated in **HackFest 2K26**, gaining practical experience in teamwork, problem-solving, and application development.

Developed **AI-powered and full-stack development projects** with a focus on practical applications.

Successfully completed multiple **NPTEL, Simplilearn, IBM, and online certification programs.**

Continuously improved technical and professional skills through online courses, certifications, and hands-on project development.

AREAS OF INTEREST

Artificial Intelligence

Machine Learning

Generative AI
